

The Bible Was Written to be Heard, Not Just Read.

Rooted Daily × ElevenLabs: Bringing 66 books, 1,189 chapters, and 31,000+ verses to life through **emotionally nuanced generative voice**, dynamic cast dramatization, and family voice cloning.

Living Scripture

Dynamic cast dramatization mapping distinct ElevenLabs voices to Jesus, Old Testament prophets, and apostolical authors.

Turbo v2.5 Synthesis

Family Voice Legacy

Allowing believers to hear Psalms or Proverbs read in their own voice, a pastor's voice, or an elderly grandparent's voice.

Instant Voice Cloning

Production-Ready

Already bundled with a full offline 66-book KJV SQLite database, MD5 local caching, and custom ElevenLabs Voice ID settings.

Live in Rooted Daily App

2.4 Billion Believers. Millions of Audio Listeners.

Outdated Audio Technology.

Traditional audio Bibles force listeners to choose between lifeless robot monotone or static 30-year-old recordings.

80%+

Quit "Bible in a Year" plans within 21 days
due to screen fatigue

\$2.0M+

Traditional studio cost for a 100-actor
dramatized audio Bible

3×

Faster growth rate of audio devotional
listening vs. text reading

73%

Listen during morning routines, driving,
workouts, and bedtime

The Flat Monotone Problem

Standard mobile TTS engines sound like automated GPS driving directions. They destroy the emotional resonance of David's laments, Solomon's proverbs, and Christ's beatitudes.

The Personal Disconnect

Faith is intimate. Listening to an unfamiliar, detached voice misses the spiritual warmth of hearing scripture recited by trusted leaders or beloved family members.

✦ THE SOLUTION

Rooted Daily Powered by ElevenLabs: Generative, Dramatized, & Personal.

Transforming static scripture reading into a deeply immersive, emotionally resonant daily habit.

Automated Multi-Voice Dramatization

Our verse parser identifies speaker tags across all 66 books—assigning distinct ElevenLabs voices for the Narrator, God, Jesus, Moses, David, and the Apostles.

Generational Voice Cloning

Through ElevenLabs Instant Voice Cloning (IVC), users can hear scripture in their own voice, their pastor's voice, or preserve an elderly parent's voice for future generations.

Atmospheric Soundscapes (Foley FX)

Procedural environmental textures via ElevenLabs Sound Effects (desert wind in Exodus, gentle Sea of Galilee waves, Roman dungeon echoes) creating deep meditative focus.

Spoken AI Reflection Companion

Connecting ElevenLabs Conversational AI to our existing Journal Reflection engine, allowing users to talk through scripture during walks or commutes.

Beyond Basic TTS: Full ElevenLabs Modality Integration

How Rooted Daily integrates ElevenLabs APIs across every devotional touchpoint.

01 • SPEECH SYNTHESIS

Eleven Turbo v2.5

Ultra-low latency streaming for on-demand chapter reading with natural pacing, breathing dynamics, and phonetic accuracy for archaic biblical names.

< 300ms First-Byte Latency

02 • PERSONALIZATION

Instant Voice Cloning

Seamless 1-minute voice capture letting users clone their voice or upload audio of pastors and family members to serve as personal scripture narrators.

High Emotional Retention

03 • CONVERSATIONAL AI

Spoken Reflection Agent

Transforms Rooted's AI Reflection Journal into a voice-first spiritual dialogue, encouraging users to vocalize insights and questions naturally.

Full Duplex Conversational

ElevenLabs Sound Effects Integration

Generating chapter-matched atmospheric Foley (Galilee waves, temple reverb, gentle desert breeze) blended in real-time with narration.

Immersive Audio Design

Experience the Living Voice

Interact with our audio player prototype to preview how different ElevenLabs voice profiles transform scripture.

CURRENTLY SELECTED PASSAGE

Psalm 23:1-4 (King James Version)

Voice: Marcus (Narrator)

"The LORD is my shepherd; I shall not want. He maketh me to lie down in green pastures: he leadeth me beside the still waters. He restoreth my soul: he leadeth me in the paths of righteousness for his name's sake."

Select Voice Profile:

Marcus (Narrator)

Engineering Readiness & Architecture

Proven caching pipeline, offline database, and resilient fallback hierarchy already in production.

High-Efficiency Caching Strategy

In `TTSService.ts`, every chapter query is hashed using `CryptoJS.MD5(cleanedText + voiceId)`. Audio is stored in `audio_cache/` on the client. Over 80% of repeat chapter listens require zero API calls, drastically reducing COGS.

Resilient Fallback Hierarchy

Tier 1: ElevenLabs High-Fidelity (Default) → Tier 2: OpenAI TTS (Network failover) → Tier 3: Native On-Device Speech. The listener never experiences a crashed or silent session even in airplane mode.

 MARKET & TRACTION

Capturing the \$2.8B Faith & Wellness Market

Unprecedented consumer appetite for premium spoken audio and daily habit formation.

HALLOW BENCHMARK

\$100M+ Raised

Reached #1 overall on the US App Store during Super Bowl Sunday, validating faith audio as mainstream.

YOUVERSION SCALE

700M+ Downloads

Audio engagement is growing 3x faster than text reading across their global user base.

ROOTED DAILY TRACTION

Production Live

Live web reader, 365-day dual reading tracks, active mobile app, and AI reflection journal in active testing.

Target Listener Persona: The Time-Constrained Seeker

Modern professionals, parents, and students who yearn for spiritual discipline but cannot carve out 45 minutes of quiet desk reading. Audio lets them absorb sacred wisdom during their 20-minute morning commute, gym session, or evening walk.

Sustainable, High-Margin Monetization

Freemium distribution paired with high-LTV premium subscriptions.

FREE TIER (VIRAL ACQUISITION)

Free Forever Reader

- Full 66-book offline KJV Bible text
- Dual 365-day reading plan tracking
- Daily "Verse of the Day" in ElevenLabs voice
- Basic on-device native TTS narration

ROOTED PREMIUM (\$7.99/MO • \$59.99/YR)

Full ElevenLabs Audio Suite

- **Unlimited Dramatized Audio Bible** (Multi-voice cast)
- **Personal Voice Cloning** for family devotionals
- **Atmospheric Soundscapes** (Foley sound effects)
- **Spoken Conversational AI Journal** companion
